DETAILED ACTION

Claims 1-34,46-77 are pending.

The office action issued on 11/29/2004 is vacated due to new ground of rejection. The terminal disclaimer filed on 10/15/2004 had been approved.

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 1-33,46-56 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention. The claimed compounds do not have the experimental data to support the claimed utilities which inhibit all kinds of tumors in the art. The specification does not provide adequate teachings to show that the claimed compounds (what compounds) can be used to inhibit the growth of which kind of tumors, or which compound(s) can inhibit all kind of tumors.

Applicant's remarks filed on 10/15/2004 had been considered, and become moot due to new ground of rejection. The terminal disclaimer filed on 10/15/2004 had overcome the obviousness double patenting rejection.

Claims 34, 57-77 are allowable.
